
ACKNOWLEDGMENTS

The Fourth International Conference on Environmental Compliance and Enforcement in Chiang Mai, Thailand was made possible by the personal and financial contributions of many organizations and individuals. An Executive Planning Committee (EPC), whose membership is listed in these Proceedings, provided leadership and direction in the design of the program, selection of the speakers and topic experts, and identification of individuals from a range of nations who would be in the best positions to share practical experience in environmental enforcement and to improve or develop domestic compliance and enforcement programs. The Executive Planning Committee included representatives from U.S. Environmental Protection Agency (USEPA), the Netherlands Ministry of Housing, Spatial Planning and the Environment (VROM), United Nations Environment Program (UNEP IE/PAC and UNEP ELI), United Nations Development Program (UNDP), the European Union, the Environmental Law Institute U.S. (ELI), the World Wildlife Fund US (WWF), the Environment Ministries of Mexico, Canada, Chile, Costa Rica, United Kingdom, Poland, Hungary, Egypt, Nigeria, South Africa, Thailand, Malaysia, the People's Republic of China and the Philippines.

The Environmental Law Institute served as the umbrella organization for Conference funding and organization. Funding of the Conference logistics, planning and workshop development was provided by the conference sponsors: USEPA, VROM, UNEP, the Environmental Law Institute, Environment Canada, the European Union, and Thailand's Pollution Control Department. In addition to the Conference sponsors, funding of participants was gratefully received from the Dutch International Affairs Ministry, the Kenan Institute, U.S. Agency for International Development (USAID), the U.S. Asia Environmental Partnership (U.S. AEP) and the World Bank. Special hospitality also was graciously offered by the government of Thailand as host country. In particular, we want to offer a note of thanks to Dr. Pakit Kiravanich and Mr. Pornchai Taranatham for their generous support, time and effort on behalf of Thailand's Pollution Control Department to make this Conference a success.

An important product of this Conference was the launching of several new international technical and capacity building support documents. A special acknowledgment to the Environmental Law Institute subcontractor Apogee Research Inc. (Dr. Kenneth Rubin, Principal) for the new Principles of Environmental Enforcement Workshop case study and technical support document on transboundary illegal shipments, and for capacity building documents on financing and on organizing permit, compliance monitoring and enforcement programs and to Science Applications International Corporation (SAIC) (Carol Winston, Principal) for the development of two new capacity building support documents on source self-monitoring and on multimedia inspections, and finally to Heijke Marketing and Communication Consultants, (Mr. Remko Herremans and Mr. René Schepers) for the new workshop on communication strategies for enforcement. Primary technical support for these documents was provided by Ms. Cheryl Wasserman and Mr. Jo Gerardu along with other reviewers from the EPC, USEPA and VROM. Special recognition for the development of the final UNEP IE workshop manual and training
